
Online Examination Report

Date:	20.08.2014
Attempts:	1
Examinee:	Okirol, Samuel
Date of birth:	
Subject:	040-Human performance
Result:	64,99 %
Time used:	00:03:52 (HH:MM:SS)

Attachments

1. List of result by questions
2. List of result by topic
3. Detailed question result report

Attachment 1: List of result by questions

CQB Number	Internal Number	Syllabus reference	Chapter	Points	Max. Points
1	180	40.	HUMAN PERFORMANCE	1,00	1,00
2	175	40.	HUMAN PERFORMANCE	0,00	1,00
3	198	40.	HUMAN PERFORMANCE	0,00	1,00
4	185	40.	HUMAN PERFORMANCE	1,00	1,00
5	203	40.	HUMAN PERFORMANCE	1,00	1,00
6	184	40.	HUMAN PERFORMANCE	0,00	1,00
7	206	40.	HUMAN PERFORMANCE	0,00	1,00
8	20	40.1.2	Accident statistics	0,00	1,00
9	104	40.2	Basic aviation physiology and health maintenance	0,00	1,00
10	61	40.2.1.2	Respiratory and circulatory systems	1,00	1,00
11	70	40.2.1.2	Respiratory and circulatory systems	1,00	1,00
12	77	40.2.1.2	Respiratory and circulatory systems	1,00	1,00
13	19	40.2.1.2	Respiratory and circulatory systems	1,00	1,00
14	60	40.2.1.2	Respiratory and circulatory systems	1,00	1,00
15	64	40.2.2	Man and Environment: the sensory system	1,00	1,00
16	41	40.2.2.2	Vision	1,00	1,00
17	66	40.2.3.3	Problem areas for pilots	1,00	1,00
18	87	40.2.3.4	Intoxication	1,00	1,00
19	155	40.3	BASIC AVIATION PSYCHOLOGY	1,00	1,00
20	154	40.3	BASIC AVIATION PSYCHOLOGY	0,00	1,00
21	14	40.3	BASIC AVIATION PSYCHOLOGY	1,00	1,00
22	146	40.3	BASIC AVIATION PSYCHOLOGY	1,00	1,00
23	160	40.3	BASIC AVIATION PSYCHOLOGY	0,00	1,00
24	145	40.3	BASIC AVIATION PSYCHOLOGY	0,00	1,00
25	2	40.3	BASIC AVIATION PSYCHOLOGY	1,00	1,00
26	156	40.3	BASIC AVIATION PSYCHOLOGY	1,00	1,00
27	141	40.3.1	Human information processing	0,00	1,00
28	132	40.3.1	Human information processing	1,00	1,00

CQB Number	Internal Number	Syllabus reference	Chapter	Points	Max. Points
29	65	40.3.1.4	Response selection	1,00	1,00
30	84	40.3.1.4	Response selection	1,00	1,00
31	21	40.3.2.4	Error generation	0,00	1,00
32	111	40.3.3	Decision making	0,00	1,00
33	56	40.3.4.3	Co-operation	1,00	1,00
34	59	40.3.4.4	Communication	0,00	1,00
35	123	40.3.5	Human behaviour	0,00	1,00
36	126	40.3.5	Human behaviour	1,00	1,00
37	147	40.3.5	Human behaviour	1,00	1,00
38	92	40.3.5.1	Personality, attitude and behaviour	1,00	1,00
39	7	40.3.6.1	Arousal	1,00	1,00
40	44	40.3.6.2	Stress	1,00	1,00
Total:65%				26,00	40,00

Attachment 2: List of result by topic

Licence

Date: 20.08.2014

Examinee: Okirol, Samuel

Location: Uganda Civil Aviation Authority

Your Result: 26,00 from 40,00 Points (65,00 %)

Topics	Amount of Questions	Points achieved	Maximum Points	Percent
40. HUMAN PERFORMANCE	40	26,00	40,00	65,00
40.1. Human Factors: basic concepts	1	0,00	1,00	0,00
40.2. Basic aviation physiology and health maintenance	10	9,00	10,00	90,00
40.3. BASIC AVIATION PSYCHOLOGY	22	14,00	22,00	63,64
Total	40	26,00	40,00	65,00

1

some of the hazardous attitudes which may occur to every pilot to some degree at some time are....

- ☐ Poor situational awareness, snap judgments, and lack of a decision making process.
- ☒ Antiauthority, impulsivity, macho, resignation, and invulnerability.
- ☐ Poor risk management and lack of stress management.

2

Examples of classic behavioral traps that experienced pilots may fall into are to

- ☐ **complete a flight as planned, please passengers, meet schedules, and 'get the job done.'**
- ☒ **assume additional responsibilities and assert PIC authority.**
- ☐ **promote situational awareness and then necessary changes in behavior.**

3

A rapid acceleration during takeoff can create the illusion of

☐ spinning in the opposite direction.

☒ diving into the ground.

☐ being in a noseup attitude.

4

Success in reducing stress associated with a crisis in the cockpit begins with

☐ eliminating the more serious life and cockpit stress issues.

☒ assessing stress areas in one's personal life.

☐ knowing the exact cause of the stress.

5

How can an instrument pilot best overcome spatial disorientation?

- ☐ Use a very rapid cross-check.
- ☐ Avoid banking in excess of 30 degrees.
- ☒ Properly interpret the flight instruments and act accordingly.

6

What is the antidote for a pilot with a 'macho' attitude?

- ☐ Taking chances is foolish.
- ☒ Follow the rules. They are usually right.
- ☐ I'm not helpless. I can make a difference.

7

What action should be taken if hyperventilation is suspected?

- ☒ **Breathe at a slower rate by taking very deep breaths.**
- ☐ **Consciously force yourself to take deep breaths and breathe at a faster rate than normal.**
- ☐ **Consciously breathe at a slower rate than normal.**

8

The distribution of primary causes of accidents in the worldwide jet aircraft commercial fleet shows that human error is involved in:

- ☐ about 90% of cases
- ☐ all cases, one way or another
- ☒ 70% of cases
- ☐ about 70% of cases

9

Which of these would most likely result in hyperventilation?

☐ Excessive carbon monoxide.

☐ Insufficient carbon dioxide.

☒ Insufficient oxygen.

10

Flying immediately after SCUBA diving involves the risk of getting:

- ☐ hypoxia
- ☐ hyperventilation
- ☒ decompression sickness
- ☐ stress

11

Someone who has anaemia does not have

- ☒ enough functional haemoglobin
- ☐ enough plasma
- ☐ enough white blood cells
- ☐ enough platelets

12

During a rapid decompression in a 2 crew aircraft, the other pilot becomes incapacitated, your first action is to:

- ☐ commence an emergency descent.
- ☐ call for immediate assistance from cabin crew.
- ☒ don your own oxygen mask.
- ☐ administer oxygen to the other pilot.

13

Hypoxia is:

- ☒ a physical condition caused by a lack of oxygen to meet the needs of the body tissues, leading to mental and muscular disturbances
- ☐ often produced during steep turns when pilots turn their heads in a direction opposite to the direction in which the aircraft is turning
- ☐ a physical condition caused by a lack of oxygen saturation in the blood while hyperventilating.
- ☐ a condition of lacking oxygen in the brain causing the circulatory system to compensate by decreasing the heart rate.

14

The following actions are appropriate when faced with symptoms of decompression sickness:

1. climb to higher level
2. descent to the higher of 10000 ft or MSA and land as soon as possible
3. breathe 100 % oxygen
4. obtain medical advice about recompression after landing

☐ 1, 2 and 3 are correct

☐ 1 and 3 are correct

☒ 2, 3 and 4 are correct

☐ 1 and 4 are correct

15

Perceptual illusions are:

- ☐ usually not serious except in bad weather.
- ☐ never caused by the brain's ability to distort normal sense inputs.
- ☐ abnormal and indicate weakness in one or more of the senses.
- ☒ normal and can be prevented by trusting instrument read-out.

16

Which of the following statements is correct?

- ☒ Scotopic Vision is vision through the operation of the Rods.
- ☐ Scotopic Vision is the same as Photopic Vision.
- ☐ Photopic Vision is the same as Peripheral Vision.
- ☐ Scotopic Vision is vision through the operation of the Cones.

17

Loss of elasticity of the crystalline lens due to ageing occurs in:

- ☒ presbyopia
- ☐ hypermetropia
- ☐ astigmatism
- ☐ myopia

18

Which statement is correct?

1. Smokers have a greater chance of suffering from coronary heart disease
2. Smoking tobacco will raise the individuals physiological altitude during flight
3. Smokers have a greater chance of contracting lung cancer

☐ 2 and 3 are correct, 1 is false

☒ 1,2 and 3 are correct

☐ 1 and 3 are correct, 2 is false

☐ 1 and 2 are correct, 3 is false

19

To enhance a student's acceptance of further instruction, the instructor should

- ☐ continually prod the student to maintain motivational levels.
- ☐ establish performance standards a little above the student's actual ability.
- ☒ keep the student informed of his/her progress.

20

Evaluation of student performance and accomplishment during a lesson should be based on the

- ☒ objectives and goals that were established in the lesson plan.
- ☐ student's background and past experiences.
- ☒ student's actual performance as compared to an arbitrary standard.

21

Carbon Monoxide is particularly dangerous because:

- 1. Its initial symptoms are not alarming**
- 2. It is colourless**
- 3. Its is odourless**
- 4. It is highly toxic**
- 5. Its effects are cumulative**

☐ 1, 2, 3 and 5 only

☐ 2, 3, 4 and 5 only

☒ all of the above

☐ 2, 3, and 4 only

22

Taking physical or mental fight is a defense mechanism that students use when they

- ☐ attempt to justify actions that otherwise would be unacceptable.
- ☐ become bewildered and lost in the advanced phase of training.
- ☒ want to escape from frustrating situations.

23

Which should be the first step in preparing a lecture?

- ☒ Researching the subject.
- ☐ Establishing the objective and desired outcome.
- ☐ Organizing the material.

24

When a student asks irrelevant questions or refuses to participate in class activities, it usually is an indication of the defense mechanism known as

☒ **aggression.**

☐ **substitution.**

☒ **resignation.**

25

What are two types of attention ?

- ☐ Cognitive and intuitive
- ☒ Selective and divided
- ☐ Divided and behavioural
- ☐ Intuitive and behavioural

26

The method of arranging lesson material from the simple to complex, past to present, and known to unknown, is one that

- ☐ the instructor should avoid.
- ☒ indicates the relationship of the main points of the lesson.
- ☐ creates student thought pattern departures.

27

The level of learning at which a person can repeat something without understanding is called

☒ basic learning.

☐ random learning.

☐ rote learning.

28

In levels of learning, what are the steps of progression?

- ☐ Application, understanding, rote, and correlation.
- ☐ Correlation, rote, understanding, and application.
- ☒ Rote, understanding, application, and correlation.

29

The ability to monitor information which could indicate the development of a critical situation

- ☐ is responsible for the development of inadequate mental models of the real world
- ☒ is necessary to maintain good situational awareness
- ☐ makes no sense because the human information processing system is limited anyway
- ☐ is dangerous, because it distracts attention from flying the aircraft

30

When problem-solving, what determines the transition from rule-based activities to knowledge-based activities?

- ☐ Unsuitability of automated actions.
- ☐ There is never a transition from Rule-based and Knowledge-based behaviour.
- ☒ Unsuitability of known rules for the problem posed.
- ☐ Knowledge of rules that apply for the problem.

31

Human error rates during the performance of a simple and repetitive task can normally be expected to be approximately:

☐ 1 in 2000

☐ 1 in 100

☐ 1 in 500

☒ 1 in 200

32

Which of the following is considered as a step involved in good Aeronautical Decision Making (ADM) process?

- ☐ identifying personal attitudes hazardous to safe flight.
- ☐ developing the 'right stuff' attitude.
- ☒ making a rational evaluation of the required actions.

33

Expressed as a simple mathematical statement when considering a crew of two, good synergy is:

☐ $1 + 1 = < 2$

☐ $1 + 1 = < 2$

☒ $1 + 1 = > 2$

☐ $1 - 1 = > 2$

34

"Stereotypes" are preconceptions or prejudices which can lead us to:

- ☒ **develop better teamwork by standardizing procedures.**
- ☐ **act in the same manner in all situations and thus assuring stability.**
- ☐ **communicate non-verbally with a stranger.**
- ☐ **mis-judge individuals even if we have contact with them.**

35

The passengers for a charter flight have arrived almost an hour late for a flight that requires a reservation. Which of the following alternatives best illustrates the ANTIAUTHORITY reaction?

- ☐ If the pilot hurries, he or she may still make it on time.
- ☒ The pilot can't help it that the passengers are late.
- ☐ Those reservation rules do not apply to this flight.

36

While on an IFR flight, a pilot emerges from a cloud to find himself within 300 feet of a helicopter. Which of the following alternatives best illustrates the 'MACHO' reaction?

- ☐ He quickly turns away and dives, to avoid collision.
- ☒ He flies a little closer, just to show him.
- ☐ He is not too concerned; everything will be alright.

37

When a student uses excuses to justify inadequate performance, it is an indication of the defense mechanism known as

☒ rationalization.

☐ resignation.

☐ aggression.

38

Which of the following elements make up the personality of an individual?

1. Heredity
2. Childhood environment
3. Upbringing
4. Past experience

☐ 2,3,4

☒ 1,2,3,4

☐ 2,3

☐ 1,2,4

39

An identical situation can be experienced by one pilot as exciting in a positive sense and by another pilot as threatening. In both cases:

- ☐ the pilot feeling threatened, will be much more relaxed, than the pilot looking forward to what may happen
- ☒ the arousal level of both pilots will be raised
- ☐ both pilots will experience the same amount of stress
- ☐ both pilots will loose their motor-coordination

40

When can the General Adaption Syndrome(GAS) activate?

- ☒ **Responding to an imaginary threat.**
- ☐ **Responding to boredom.**
- ☐ **Responding to Hypovigilance.**
- ☐ **Responding to Circadian Disrhythmia.**
